Registration for a Degree Project, Academic Years 2026-2027¹

I, apply to² a degree project with the course code³ at
Your name *Swedish civic number*

.....
Department / Company *Division of Dept. of Physics* *Your e-mail address* *Your phone*

Studies on this course are⁴: ☐ full-time ☐ half-time Starting date (yyyy-mm-dd):

Theme/title of work (preliminary)

☐ This is a project extension Motivation for the extension (as agreed with the supervisor and course leader):

☐ We, the undersigned student and the supervisor(s), have taken note of the Science Faculty rules for degree projects⁵.

A short project plan and a timeline (max. A4 page each) should be submitted along with this registration form.

Deadlines for project reports: December 17, 2026 for single-term and May 14, 2027 for two-terms projects

Examination planned in: ☐ January 2027 ☐ May 2027 Other occasion⁶, namely (yyyy-mm-dd):

☐ The project deals with data, results or methods that **can not** be made public for ethical, commercial or other confidentiality considerations.

Assessment criteria:

- Working effort, dedication
- Engagement: questioning, profound thinking and seeking, not content with ready answers
- Independence⁷, own analysis, own conclusions, originality⁸
- Report⁹ and oral presentation: time planning, structure, communication, clarity
- Ability to put one's own work into a context, regarding applications, impact on society, ethics and so on.

Basic requirements

- To be registered (compulsory at each term start) one must have applied for the degree project course and been accepted.
 - Students who are conditionally accepted cannot be registered until all the pre-conditions are met.
- Students also, in general, have to be enrolled in the Physics program at the Science Faculty of Lund University.
- Students must attend the introduction meeting.
- By the introduction meeting, students should find a project subject and a supervisor, to start the project in time.
- Students and supervisors must sign this form and hand it in¹⁰. In doing so, one of the pre-conditions is fulfilled.
- For degree projects spanning more than one term, re-registration should be done at the beginning of each term.
- If the student requires special attention or support, please contact Study Support and Advising Services (Pedagogiskt stöd) and the Student Counsellor (Studievägledare) prior to handing in this form.
- Students and supervisors must read and accept the contents of Appendix A "To Prepare, Perform and Present".

Place and date:

.....
Student's signature *Supervisor's name (typed) and signature* *Supervisor's e-mail (typed)*

.....
Co-supervisor's name (typed) and signature *Co-supervisor's e-mail (typed)*

¹ Filling in and signing this registration form certifies that the student and the supervisor(s) have accepted its content and its attachments and agree to have all the entered information stored by the Diploma Office for administrative and examination purposes. The information will not be shared with other parties.

² See <https://www.fysik.lu.se/en/education/academic-conduct>. Signing this registration implies that you have done this and are fully aware of what Academic Conduct implies. A zero-tolerance policy against e.g. plagiarism is applied.

³ For course codes, see <https://canvas.education.lu.se/courses/4077>

⁴ For bachelor projects, only half-time speed is possible (15 hp in one term).

⁵ See <https://www.fysik.lu.se/en/education/degree-projects-and-applied-work>

⁶ Right to prolonged supervision ends if examination is postponed by more than two months.

⁷ Report and oral exam should clearly display what the student's independent contributions and results are. Use of assisting tools (e.g. text or code generators) must be explained and be in line with the Academic Conduct rules.

⁸ Quoted/copied sources should be referenced and found in bibliography. Immaterial rights must be respected; see footnote 2.

⁹ The report is a public act and should take into consideration the Science Faculty education plan at LU.

¹⁰ Original to the Diploma Office (Oxana Smirnova), copy to student and supervisor(s).
